

JEREMIAH W. (JAY) NIXON
GOVERNOR

GOVERNOR OF MISSOURI
JEFFERSON CITY
65102

P.O. Box 720

January 28, 2013

TO THE GENERAL ASSEMBLY AND THE PEOPLE OF MISSOURI:

During my first term as Governor, we worked together to move Missouri forward and maintain strong fiscal discipline. That hard work is paying off. Missouri employers added more than 40,000 jobs last year. Missouri exports continue to climb and home construction is rebounding. Missourians are once again investing in the future.

Together, we have balanced the budget for the past four years and we have held the line on taxes. As a result of our focus on fiscal discipline, Missouri is one of only a few states to hold a spotless AAA credit rating from all three rating firms. This sound financial management will allow us to invest in key priorities in the upcoming budget.

Our top priorities will continue to unite us – investing in education, creating jobs for Missourians, growing our economy and keeping our fiscal house in order.

- **Investing in education from the earliest years through college:** We will increase funding for early childhood education, provide record funding for K-12 classrooms, expand A+ Scholarships statewide, and provide funding tied to improved outcomes for higher education.
- **Helping businesses grow and create jobs:** By streamlining the state's business incentive programs, cutting bureaucratic red tape, and ramping up efforts to help businesses ship their goods around the globe, we will continue to make Missouri a better place for businesses to invest and create jobs.
- **Keeping our tax dollars here at home:** Missouri has a choice: we can put our federal tax dollars to work here in Missouri by covering more people through Medicaid or send those tax dollars to provide health care in other states. Keeping them here is the smart thing to do for our economy and the right thing to do for Missouri families.
- **Improving critical public facilities:** By capitalizing on Missouri's AAA credit status and enacting legitimate tax credit reform, we can invest in critical projects to keep Missouri moving forward.
- **Making government more efficient:** We will invest in technology and continue to streamline operations and make government smarter and smaller.
- **Balancing the budget while holding the line on taxes.**

Ensuring the welfare of the people is not only our state motto, but our guiding principle. I look forward to working with you on the important decisions that are before us. Together, we will keep Missouri moving forward.

Sincerely,

A handwritten signature in black ink, appearing to read "Jeremiah W. (Jay) Nixon".

THE MISSOURI BUDGET

FISCAL YEAR 2014

SUMMARY

I. OVERVIEW

Governor Nixon is a firm believer that by working together there is no limit to what can be accomplished. Leading by example, Governor Nixon continues to work with the General Assembly to ensure Missouri's Budget remains balanced without raising taxes.

Since taking office, Governor Nixon has cut spending by \$1.8 billion and ensured state government is smaller and working smarter and more efficiently for Missouri taxpayers. These spending reduction decisions were tough but necessary to ensure resources remained available for high priority items, like funding for K-12 classrooms. His fiscally conservative management style helps Missouri retain its AAA credit rating from all three rating agencies – one of only a few states in the nation with this superb rating.

Governor Nixon's Fiscal Year 2014 Budget priorities are investing in education, creating jobs for Missourians; providing transitional health care to low-income working Missourians; and continuing his efforts in fiscal discipline and streamlining government.

Education

Governor Nixon knows the importance of a quality public education. In today's competitive economy, education is the key to finding a good job. He is dedicated to ensuring that every Missouri child has access to a world-class education.

Governor Nixon believes that early childhood programs are smart investments. The economic and academic consequences of failing to invest in early childhood education are staggering—reduced academic achievement,

lower-paying jobs, and a high reliance on public assistance.

For Early Childhood Education the Fiscal Year 2014 Budget provides:

- \$44.8 million for the First Steps Program, an increase of \$1.5 million.
- \$18.3 million for the Missouri Preschool Program, an increase of \$10 million.
- \$6.2 million for Early Head Start Programs, an increase of \$3.5 million.
- \$3.5 million new funding to assist childcare providers with improving the quality of their services and become accredited.

Under Governor Nixon's leadership, state support for Missouri's public elementary and secondary schools remains a top priority. The Governor's Fiscal Year 2014 Budget includes record funding for K-12 classrooms.

For Elementary and Secondary Education, the Fiscal Year 2014 Budget provides:

- \$3.075 billion for the state's foundation formula, an increase of \$65.9 million.
- \$793.1 million for K-12 school districts from Proposition C collections, an increase of \$32.5 million.
- \$38.1 million for special education high cost students, an increase of \$8.8 million.

To incentivize higher education institutions to focus on college completion and ensure taxpayer investments yield the best return, Governor Nixon's Fiscal Year 2014 Budget includes new funding based on improved outcomes. This incentive funding allocates a portion of the higher education budget based on specific measures in student success, degree completion, professional certification, financial responsibility, and efficiency.

Missouri's scholarship programs help students and families struggling to pay for college and keep the best and brightest students in the state by assisting families with continued access to higher education. The Governor's Fiscal Year 2014 Budget provides over \$100 million in the state's major scholarship programs:

- A+ Scholarship Program—provides two years of tuition-free study for eligible students at Missouri community colleges and career/technical schools.
- Academic (Bright Flight) Scholarship Program—provides scholarships to graduating high school seniors scoring in the top three percent on academic achievement tests.
- Access Missouri Financial Assistance Program—provides need-based scholarships to eligible Missouri students.

For Higher Education, the Fiscal Year 2014 Budget provides:

- \$34 million new incentive funding for colleges and universities based on improved outcomes.
- \$62.8 million to maintain current funding levels for the Access Missouri Scholarship Program, assisting an estimated 56,000 students.
- \$30.4 million for the A+ Scholarship Program, an increase of \$1 million to ensure students graduating from any Missouri public high school have access to this scholarship, assisting an estimated 13,600 students.
- \$12.3 million to maintain level funding for the Academic Scholarship Program (Bright Flight), assisting an estimated 6,100 students.

Jobs

Governor Nixon's top priority is to create jobs for Missourians. He continues to focus on improving the state's economic development tools and planning for future economic needs. Missouri's improving economy is evidenced through increased hiring by business, accelerated state exports, and expansions of companies. The Governor will work with the General Assembly to:

- Create an up to date, streamlined business development incentive plan;
- Streamline the state's industry training programs;
- Expand Missouri's exports to other countries; and
- Develop a bonding package to fund critical projects.

The Fiscal Year 2014 Budget provides:

- \$19.1 million for the Division of Tourism to enhance efforts to showcase Missouri and foster partnerships in the travel and tourism industry, an increase of \$6 million.
- \$15.9 million for the Missouri Customized Job Training Program, to provide training assistance to eligible businesses to retrain workers in existing jobs or train workers in newly created jobs, an increase of \$2 million.
- \$10.6 million to expand childcare assistance to more low-income working families and increase rates to help ensure access to quality childcare.
- \$8 million for distribution to the Missouri Arts Council and the other cultural partners from the tax collections on non-resident athletes and entertainers, an increase of \$7 million.
- \$5.5 million for biodiesel production incentives, an increase of \$600,000.
- \$4.2 million to improve ports along the state's major waterways and to advance the movement of freight between major transportation modes, an increase of \$3.9 million.
- \$2.3 million new funding for trade promotion activities and resources to expand Missouri exports to other countries.

With Missouri's perfect Triple A credit rating intact and interest rates at all-time lows, Governor Nixon believes now is the time to responsibly move forward with a bond issuance. Interest rates today are about one-half of what they were in 1995 when fourth state building bonds were issued and one-third of what they were when third state building bonds were issued in 1983. But in order to have the Governor's support, any bond issuance must meet two conditions. First, it must be narrowly focused on smart, strategic infrastructure investments. Second, there must be a specific way to pay for it. The Governor recommends targeting the use of the bond funds on:

- A permanent, low-interest, loan fund dedicated to improving our K-12 school buildings and facilities.
- Cutting-edge facilities on our college campuses in areas that are critical to our competitiveness, such as engineering, math, and the life sciences.
- Construction of a modern facility to replace Fulton State Hospital that's better-suited to the needs of mentally ill patients and the people who care for them.
- Improved accommodations at Missouri's state parks, which need an upgrade, including top-of-the-line cabins and lodges that would increase tourism, put more Missourians to work, and boost our economy.

The way to pay for the repayment of these bonds is clear; the tax credit system is out of control and demands reform. In July 2010, Governor Nixon appointed a Tax Credit Review Commission to review the state's tax credit programs and make recommendations for greater efficacy and enhanced return on investment. Twenty-four business, community, and legislative leaders served on the commission, to which the Governor renewed his charge in 2012. The Governor supports the implementation of key updated recommendations, including eliminating inefficient programs, and implementing reasonable caps. These changes will generate savings to pay for the costs of the bonding package. The Governor also recommends that savings from the renters portion of the property tax credit be set aside in the Missouri Senior Services Protection Fund. Governor Nixon will work with legislators to ensure that we use these financial tools wisely, effectively, and efficiently to achieve our economic goals.

Public Health and Safety

➤ Strengthening Medicaid

For many low-income working Missourians, access to health care is limited to the door of an emergency room. The preventive and primary care enjoyed by most Missourians is not an option for those without a job that provides medical insurance.

In 2012, Governor Nixon laid out his plan to provide health care coverage for

300,000 Missourians. A fiscally responsible move for taxpayers, federal funding will cover 100 percent of the costs for the first three years, phasing down to 90 percent in 2020. The savings and revenue generated will more than offset the cost of the expansion. It will provide coverage for a Missouri family of four making up to \$31,809 a year.

Hospitals are required by law to treat people who have no health insurance; this passes the high cost of caring for the uninsured to employers and individuals through higher premium costs. A recent report by the Missouri Hospital Association found that in 2011, Missouri hospitals provided \$1.1 billion in uncompensated care to Missourians — a record level. Hospitals in Missouri are facing significant cuts in federal funding. Some hospitals, particularly in rural areas, may be forced to close. One-third of the state's population resides in rural Missouri. Expanding health care coverage will increase the resources available to these hospitals, helping ensure their survival and preserving access to local medical care for Missourians living in rural areas.

Strengthening our Medicaid system will infuse \$1.8 billion of federal funds into the state of Missouri in Calendar Year 2014. This infusion of federal dollars will allow employers to add jobs to their payrolls. A recent study by the University of Missouri stated that this additional funding for health care will create 24,000 new jobs in Missouri in 2014, alone.

In Fiscal Year 2014 strengthening Medicaid will:

- Increase new federal dollars spent on health care by \$907.5 million paying for coverage of 300,000 uninsured working adults.
- Result in general revenue savings of \$31.1 million by using federal funds to cover costs currently paid with state dollars and \$15.5 million in additional general revenue collections, for a net positive impact of \$46.6 million.
- Pay providers rates equal to those paid in the commercial market.
- Provide incentives to clients, providers, and plans to improve health outcomes and hold down costs.

➤ Partnership For Hope

The demand for home and community-based services for individuals with developmental disabilities previously resulted in a large backlog of Missouri families waiting for help. In 2010, Governor Nixon announced the Partnership for Hope to provide families with services sooner than previously possible, delaying or avoiding the need for residential or institutional care in many cases.

Governor Nixon's Fiscal Year 2014 Budget includes a \$10.2 million increase to expand the Partnership for Hope. This increase will provide home and community-based services to over 1,000 new individuals with developmental disabilities. This program, which started in 2010, will grow to more than 3,500 participants by the end of Fiscal Year 2014.

➤ Mental Health Care

Governor Nixon's Fiscal Year 2014 Budget includes \$10.1 million of funding for the Department of Mental Health to strengthen Missouri's mental health system. These dollars will be directed to help those in first contact with someone with a mental illness to understand how to respond as well as provide options to ensure Missourians who have a mental illness are directed to appropriate care. Specifically, the budget will:

- Invest dollars to expand the Mental Health First Aid training. This training provides a basic understanding of mental illness for educators, students, law enforcement, church leaders, and employers.
- Improve the coordination of services from schools to law enforcement to treatment providers for individuals with mental illness, by placing mental health liaisons in community mental health centers across the state.
- Expand the National Alliance for Mental Illness Family-to-Family and Basics programs.
- Provide for additional crisis intervention training for law enforcement that is

specific to individuals in mental health crisis situations.

- Focus on emergency room diversion projects to help mental health patients get the appropriate type of care when it is needed.

Fiscal Discipline

Governor Nixon has made it a priority to review operations of state government to ensure that state agencies are smaller, smarter, and more efficient. Efficiencies include the downsizing of leased space, sale of state property, reduction in the state's vehicle fleet, implementation of numerous technology initiatives, and reductions in the state's workforce.

Efforts to continue the Governor's fiscal discipline plan include – reductions in administrative costs, investing in technology to continue downsizing state government, efficiencies in providing healthcare services, tax credit reform, and revenue collection improvements.

➤ Administrative Efficiencies

Each year Governor Nixon's Budget recommendations require state agencies to efficiently utilize resources and reduce administrative costs. Fiscal Year 2014 is no different; his budget includes reducing the state workforce by nearly 200 positions, bringing the total reduction to over 4,500 positions since 2009.

The Governor's Fiscal Year 2014 state employee compensation package includes a general structure adjustment, a repositioning for certain positions, and funding for retirement and health care benefits.

General Structure Adjustment--The Governor's Budget includes a two percent pay raise for all state employees, beginning January 1, 2014. The cost of the pay plan for Fiscal Year 2014 is \$24.7 million, including \$11.7 million general revenue.

Repositioning—Governor Nixon recognizes the importance of having experienced direct care nurses in our state agencies and state operated institutions. Entry level

nursing positions experience a voluntary turnover rate of over 38%. Investing money in the salaries of the more than 1,800 nurses serving some of our most vulnerable citizens will improve the state's ability to recruit new nurses as well as retain experienced nurses. The Fiscal Year 2014 Budget provides \$3 million, including \$1.6 million general revenue, for nursing and nursing assistant job classes.

Employee Benefits—The Governor's Budget includes a \$45.6 million increase, including \$24.3 million general revenue, to fully fund the actuarially required contribution to the Missouri State Employees Retirement System. His budget also includes funding to the Missouri Consolidated Health Care Plan that will allow for no increase in premiums for employees earning incentives for wellness activities.

➤ Health Care Efficiencies

Governor Nixon has implemented significant cost containment strategies to control the growth in the Medicaid program during his tenure, including:

- Improving care management for high cost users, thereby lowering costs and improving health status for our most expensive clients.
 - Enhancing efforts to focus on community care for seniors and people with disabilities, to reduce more costly nursing home care, thereby earning enhanced federal funding for these services.
 - Increasing use of generic drugs, rather than more expensive name-brand drugs.
 - Cutting costs for managed care through rate adjustments that promote better coordinated care, lower administrative costs, and ensure the rates are at the most cost-effective level.
 - Consolidating Medicaid audit and compliance functions in a single unit to improve the identification and lower the incidence of fraud in the Medicaid Program.
 - Reducing rates paid to providers to a level that would still ensure access to services, but also keep costs low.
- Increasing coordination of benefits with other insurance providers; ensuring costs are appropriately paid by those other insurers rather than Medicaid.
 - Using other funding sources to lower the need for scarce state general revenue.

The Governor's Budget will continue and expand upon these successful efforts to control the cost of the Medicaid Program and improve the health of Missourians receiving Medicaid benefits.

➤ Revenue Efficiencies

The Department of Revenue is charged with collecting taxes and debt owed to the State of Missouri. Every year millions of dollars of legitimate, unpaid tax debt elude state coffers. Governor Nixon directed the department to conduct a thorough review of its operations and shift savings to enhance its revenue collection efforts. Many changes have been implemented but others require legislative enactment. The Governor supports legislation for:

- **Sales Tax Fairness**—the department will be able to collect sales taxes from out-of-state vendors that have an unfair competitive advantage over vendors in the state. These changes will realign "nexus" standards to make them comparable to federal standards and those of other states. In addition, the state will join the Streamlined Sales Tax Agreement, minimizing the differences between sales and use tax regulations of the member states. This will encourage out-of-state retailers to collect and remit sales tax to Missouri. Together, these initiatives are estimated to increase collections by \$15 million in Fiscal Year 2014, including \$10.5 million general revenue.
- **Federal Vendor Offset**—the department will establish reciprocal agreements with the federal government to offset vendor payments for any outstanding debt. This change will generate \$2 million, including \$1.6 million general revenue, in Fiscal Year 2014, and similar amounts annually thereafter.

- Administrative Garnishments—the department will be able to issue garnishments directly to banks and employers instead of filing them with the circuit court, which requires service by the county sheriff. This will streamline the current process and generate \$1.5 million general revenue in Fiscal Year 2014 and \$3 million annually thereafter.

➤ Tax Amnesty

Governor Nixon also supports tax amnesty legislation to increase state revenue collections allowing taxpayers who owe the State of Missouri delinquent taxes to pay the taxes owed and be excused from penalties and interest that have accrued. Amnesty will be provided on a one-time, limited basis. This initiative is estimated to increase collections by \$61.4 million in Fiscal Year 2014, including \$51.8 million general revenue.

II. THE ECONOMIC OUTLOOK

U.S. Economic Position

The national economy continued to grow in Calendar Year 2012, even as businesses and consumers awaited the outcome of the November elections. Uncertainty surrounded federal fiscal policy, as it was apparent no plan to avert the “fiscal cliff” would be developed until after the polls closed. While intended to reduce the budget deficit and shrink the growing federal debt, the spending cuts adopted in the summer of 2011, together with the expiration of tax cuts passed throughout the prior decade, would significantly reduce economic growth early in 2013. The President and Congress eventually reached an agreement on tax policy as the year started; discussion on spending cuts was delayed until spring.

The economy continued to expand despite two significant weather events. Over the summer, the Drought of 2012 impacted farm incomes and reduced food inventories. At the other extreme, Hurricane Sandy came ashore in New Jersey in late October, causing substantial wind and water damage to much of New England.

Despite these challenges, the economy grew modestly in 2012. Average employment increased 1.4 percent over the year. The unemployment rate steadily edged lower, to 7.8 percent in December, near the lowest rate over the last four years. Personal income continued to improve. Consumer confidence and spending are gradually recovering, even in the face of high gasoline prices. Corporate profits are near record highs, both in nominal terms and as a share of the economy. The S&P 500 index closed the year 13.4 percent above 2011. Housing prices have increased, and the inventory of homes has dwindled, which should spark construction.

Assuming no missteps in fiscal policy, the economy is poised for growth, and the outlook over the next two years is promising. Businesses have financing available, and the Federal Reserve continues to hold interest rates down. This should spark additional investment in equipment and eventually labor. Similarly, mortgage rates remain at historic lows, which will continue to support the improving housing market. Consumers will feel more comfortable releasing pent-up demand, and the recovery will become self-sustaining. Due to changes in fiscal policy, forecasters are anticipating only slight economic growth during the first half of 2013, but the growth will accelerate to rates well above trend by the end of 2014.

In addition to the risks posed by fiscal policy, there are numerous other risks to this outlook. Should the European Union fail to get its finances in order, repercussions will quickly radiate throughout the global economy. Geopolitical conflicts, especially in the Persian Gulf, could have a powerful impact on oil prices. However, economic growth could exceed expectations if the mounting housing recovery takes off, and business investment accelerates.

Missouri Economic Position

Missouri's economy, is improving, as evidenced by recent indicators. According to payroll data in December, Missouri added 40,000 jobs. Through all of 2012, employment improved 0.3 percent compared to 2011. Unemployment claims have fallen to pre-recession levels. Missouri's unemployment rate declined to 6.7 percent in December, the lowest rate in over four years. Personal

income continues to grow at a modest pace. Export growth has been robust in 2012. Missouri's economy is expected to grow at a quicker pace, especially in the second half of calendar year 2013. Job growth will accelerate into 2014. The housing market remains relatively stable compared to the U.S. as a whole, and prices are improving. Risks are similar to those of the nation as a whole.

III. REVENUE PROJECTIONS FOR FISCAL YEARS 2013 AND 2014

Governor Nixon and legislative leaders once again reached a consensus revenue estimate for Fiscal Years 2013 and 2014.

Continued steady growth is expected for Fiscal Year 2013. The revised revenue estimate calls for growth of 4.8 percent, which reflects modest growth in income and sales taxes, with an additional one-time boost from the national mortgage settlement. The impacts of the phase-out of corporate franchise tax will become evident in Fiscal Year 2013. Further, state tax changes in the form of income tax relief for seniors and veterans will continue to curtail revenue growth. Tax credit redemptions will remain strong.

While improving employment and spending growth would otherwise boost general revenue collections by 4.8 percent in Fiscal Year 2014,

the franchise tax phase-out and expected federal tax changes will hold revenue growth to only 3.1 percent. Even if this growth rate is achieved, general revenues will remain about \$75 million below actual collections in Fiscal Year 2008.

IV. REVENUE LIMITATION AMENDMENT

Article X of the Missouri Constitution establishes a revenue and spending limit on state government. The limit is 5.6 percent of Missouri personal income, based on the relationship between personal income and total state revenues when the limit was established and approved by voters in November 1980. Calculations made pursuant to Article X of the Missouri Constitution show that total state revenues for Fiscal Year 2012 were below the total state revenue limit by over \$3.7 billion.

The Office of Administration projects that total state revenues will not exceed the total state revenue limit in Fiscal Years 2013 or 2014. These preliminary calculations are subject to change as actual state revenue collections become known and as the federal government revises its estimates of Missouri personal income. These projections could change if legislation was approved to increase taxes without a vote of the people. Pursuant to Article X of the Missouri Constitution, revenue approved by the voters is not subject to the revenue and spending limit.

THE MISSOURI BUDGET

In addition, Article X, Section 18(e) of the Missouri Constitution states the General Assembly shall not increase taxes or fees in any fiscal year, without voter approval, that in total produce net new annual revenues greater than \$50 million, adjusted annually by the percentage change in the personal income of Missouri for the second previous year, or one percent of total state revenues for the second fiscal year prior to the General Assembly's action, whichever is less.

"Net new annual revenues" is defined as the net increase in annual revenues produced by the total of all tax or fee increases by the General Assembly in a fiscal year, less refunds and less all contemporaneously occurring tax or fee reductions in that same fiscal year.

For Fiscal Year 2012, these calculations were \$103.2 million for the personal income amount and \$80.2 million for the one percent of total state revenues amount. Legislative actions in the 2012 session resulted in a decrease of \$1.3 million in state revenues when the provisions are fully implemented.

For Fiscal Year 2013, the calculations are \$106.1 million for the personal income amount and \$84.2 million for the one percent of total state revenues amount.

Moody's Investors Service, Standard and Poor's Corporation, and Fitch Ratings have consistently awarded the State of Missouri's bond issues the highest rating: "Triple A". Missouri is one of only ten states with this rating from all three rating organizations. General obligation bonds are only issued through voter-approved state constitutional provisions. Current general obligation bonds are for four purposes:

Fourth State Building Bonds: In August 1994, Missouri voters approved a fourth state building bond issue of \$250 million to provide essential prison capacity, new residential beds for juvenile offenders, and significant new higher education construction and renovation.

Water Pollution Control Bonds: Missouri voters approved several water pollution control bond issuances totaling \$725 million. Water pollution control bond proceeds help local governments construct wastewater and stormwater control facilities and improve public drinking water systems. These infrastructure improvements support local economic development, protect Missouri waterways from pollution, and help ensure safe drinking water supplies.

Stormwater Control Bonds: In November 1998, Missouri voters approved stormwater control bond issuances of \$200 million for stormwater control plans, studies, and projects.

Third State Building Bonds: In 1982, Missouri voters approved \$600 million in bonds for construction and improvements to state buildings, property, state parks, rail and highway access. The final debt payment was made on October 1, 2012.

PUBLIC DEBT

ADMINISTRATION OF PUBLIC DEBT

The Board of Fund Commissioners administers the state's general obligation bonded indebtedness. The board is comprised of the following members pursuant to Section 33.300, RSMo: Governor, Lieutenant Governor, Attorney General, State Auditor, State Treasurer, and Commissioner of Administration. The processing and sale of the state's general obligation bonds result in administrative costs. The board directs the payment of state debt principal and interest. Moody's Investors Service, Standard and Poor's Corporation, and Fitch Ratings rate State of Missouri general obligation bonds as "Triple A". In addition, the Board of Fund Commissioners is obligated to repay to the United States Treasury excess interest earnings (arbitrage rebate) on water pollution control bonds, stormwater control bonds, and fourth state building bonds.

Fiscal Year 2014 Governor's Recommendations

- \$20,002 for the administration of public debt.

FOURTH STATE BUILDING BONDS DEBT SERVICE

Under the provisions of Article III, Section 37, Missouri Constitution, Missouri voters approved \$250 million in fourth state building bonds to be used for capital improvement projects at state facilities and higher education institutions. In Fiscal Year 1995, the General Assembly authorized and sold bonds on a cash-as-needed basis to meet scheduled construction timetables. With the final sale of \$50 million on June 1, 1998, all \$250 million in voter-approved bonds have been issued.

This appropriation provides for principal and interest payments on outstanding fourth state building bonds. The money is transferred from general revenue to the Fourth State Building Bond and Interest Fund one year in advance of its required payment.

Fiscal Year 2014 Governor's Recommendations

- \$24,215,650 for the transfer of general revenue for debt service on currently outstanding fourth state building bonds.

A multitude of programs and funding sources are utilized to ensure all Missouri children receive a quality education. The bulk of state aid is distributed to districts via the foundation formula. In 2005, SB 287 was signed into law resulting in a new foundation formula to distribute state aid to Missouri schools based on a per-student adequacy target. State funds are distributed to school districts based on the adequacy target times the number of students, minus the funding provided through local property and other taxes. The formula provides additional funding for children struggling with the English language, financial constraints, and special needs. In addition, the formula uses a regional dollar value modifier to address cost of living differences throughout the state.

In addition to the State's General Revenue Fund, revenues from the Fair Share Fund, County Foreign Insurance Tax, Lottery Proceeds Fund, Gaming Proceeds for Education Fund, and cigarette taxes are distributed via the foundation formula.

- Fair Share Fund revenues are generated from tax receipts from four cents per cigarette pack.
- County Foreign Insurance Tax revenues are generated from the receipts of a two percent, per annum tax levied on the direct premiums of insurance companies not based in Missouri but doing business in Missouri. One-half of the net receipts of the County Foreign Insurance Tax from the previous year are distributed to school districts.
- Lottery Proceeds Fund revenues are generated from Missouri State Lottery revenue.
- The Gaming Proceeds for Education Fund revenues are generated from a tax on riverboat gaming adjusted gross receipts, which are distributed to school districts through the Classroom Trust Fund as a component of the foundation formula.
- The State School Moneys Fund receives tax receipts from nine cents per cigarette pack.

Missouri's Public School Aid includes funding for foundation categorical add-on programs, including Early Childhood Special Education, Transportation, Career Education, and the Early Childhood Development Program.

The Small School Success Program provides additional funding for small school districts throughout the state. The School District Trust Fund provides additional funding distributed directly to districts to be used largely at their discretion. School District Trust Fund revenues are generated from Proposition C, which collects a one percent sales tax for elementary and secondary education.

The Missouri Virtual School allows children to enroll in online classes. For a fee, students have the option of enrolling full-time in the virtual school or enrolling part-time, allowing them to take courses not currently offered in their local school. Enrollment is open to all students, public or private, including homeschooled students. State funding provides access to the Missouri Virtual School for medically fragile students who are unable to attend class in their local school.

Fiscal Year 2014 Governor's Recommendations

- \$65,883,326 Classroom Trust Fund for the foundation formula.
- \$32,500,000 School District Trust Fund to provide sufficient capacity for distribution of additional revenue to school districts.
- \$14,357,481 State School Moneys Fund for the Early Childhood Special Education Program that replaces funding from the Early Childhood Development, Education and Care Fund.
- \$1,500,000 to expand education opportunities for students in low-income school districts.
- (\$14,357,481) Early Childhood Development, Education and Care Fund core reduction from the Fiscal Year 2013 appropriation level.
- (\$1,400,000) Lottery Proceeds Fund core reduction from the Fiscal Year 2013 appropriation level.

To ensure adequate funding is available for Missouri's Public School Aid, a number of transfers are made from general revenue (GR), the Gaming Proceeds for Education Fund (GPEF), and the Lottery Proceeds Fund (LPF) to the Outstanding Schools Trust Fund (OSTF), State School Moneys Fund (SSMF), and the Classroom Trust Fund (CRTF).

The Access Missouri Financial Assistance Program provides need-based scholarships to eligible Missouri residents. Need is determined based on the student's expected family contribution with different award amounts depending on the type of higher education institution the student attends. Under current law, students attending private four-year colleges and universities are eligible to receive up to \$4,600 in taxpayer-funded scholarships, students attending Missouri's public four-year institutions are eligible to receive up to \$2,150, and students attending community colleges are capped at \$1,000.

Fiscal Year 2014 Governor's Recommendations

- (\$5,195,000) other funds core reduction from the Fiscal Year 2013 appropriation level; however, sufficient carryover of fund balance will ensure no program reductions.

A+ SCHOOLS SCHOLARSHIP PROGRAM

The A+ Schools Scholarship Program provides for two years of tuition reimbursement at public community colleges or vocational or technical schools for qualified students who graduate from an A+ high school, earn a GPA of at least 2.5, have at least a 95 percent attendance record, and fulfill community service requirements.

Fiscal Year 2014 Governor's Recommendations

- \$1,000,000 to expand the A+ Scholarship Program to all Missouri public high school students.

Activities began when students were in middle school and continued to focus on those same students through their high school years. Although the college preparation and outreach components of the grant have been completed, the grant also contained a financial assistance component. Consequently, eligible students who participated in program activities at these high schools are receiving GEAR UP scholarships based on high school performance and financial need.

Fiscal Year 2014 Governor's Recommendations

- (\$350,000) GEAR-UP Scholarship Fund core reduction from the Fiscal Year 2013 appropriation level.

MISSOURI STUDENT LOAN PROGRAM AND ADMINISTRATION

The Missouri Student Loan Program administers a program that has provided repayable guaranteed student loans to parents and students through commercial lending institutions since 1979. Since its inception, the program has guaranteed nearly 3 million loans totaling over \$10.9 billion. Because of changes in federal law, the DHE no longer has authority to guarantee new federal student loans as of July 1, 2010. However, the DHE will continue to fulfill the responsibilities related to its \$2.9 billion portfolio of outstanding guaranteed and defaulted loans. The Missouri Student Loan Program uses private contractors to aid in servicing and collecting loans. Loan program staff perform general loan program administration and oversight functions. Loan program staff also work closely with lenders, schools and borrowers to prevent loan defaults. In addition, loan program staff provide numerous outreach services to inform students, parents, and schools about financial aid, college preparation, financial literacy, and debt management.

Fiscal Year 2014 Governor's Recommendations

- \$20,384 Guaranty Agency Operating Fund for pay plan.
- \$1,322 Guaranty Agency Operating Fund for the final pay period of the Fiscal Year 2013 approved pay plan.

DEPARTMENT SUMMARY

The Fiscal Year 2014 budget provides \$2.1 billion for the Department of Transportation. MoDOT's construction program is diminishing due to a cessation of funds from Amendment 3 bonds, reduced American Recovery and Reinvestment Act of 2009 (ARRA) funding, stagnant fuel tax collections, reduced federal funding, and rising internal costs.

The department is responsible for overseeing all aspects of Missouri's transportation system. The core functions of the Department of Transportation include:

- Constructing and maintaining the state road and bridge system.
- Encouraging safety on Missouri highways for citizens and Department of Transportation employees.
- Providing capital improvement and operating assistance grants for rural and urban transit systems, public airports, ferry boats, and passenger rail service.
- Registering commercial motor vehicles.

The Division of Animal Health implements programs to protect Missouri's livestock, poultry, and other domestic animals from dangerous, infectious, or contagious diseases. These responsibilities include the enforcement of animal health regulations as required under Section 267.230, RSMo. Through control, containment, and elimination of diseases and diseased animals, the division enables Missouri's livestock and poultry to remain eligible for interstate and international export marketing. Diagnostic laboratories are maintained in Jefferson City and Springfield, and additional professional services are contracted through the University of Missouri-Columbia College of Veterinary Medicine. The division also works closely with USDA-Veterinary Services and receives significant federal funding as a result of this relationship. To ensure the health and well-being of companion animals sold in Missouri, the division's Animal Care Program also licenses and inspects animal shelters, dog pounds, boarding kennels, commercial kennels, contract kennels, and pet shops. The division's Meat and Poultry Inspection Program works with producers to promote, protect, and develop the agricultural interests of Missouri processed meat products. This program helps livestock and poultry producers add value to their operations and capture additional profits from their meat products.

Fiscal Year 2014 Governor's Recommendations

- \$353,668 and four staff for meat and poultry processing plant inspections, including \$176,834 general revenue.
- \$212,224 federal funds and one staff to enhance food safety.

The Division of Grain Inspection and Warehousing operates four programs to assist Missouri grain farmers and agribusinesses. The Grain Regulatory Services Program enforces the Grain Warehouse Law, Chapter 411, RSMo, and the Grain Dealers Law, Sections 276.401 through 276.581, RSMo, to ensure grain producers that license grain warehouses and grain dealers are reputable businesses in sound financial condition. The Grain Inspection Services Program performs official inspection and weighing of grain upon request to assist both grain farmers and grain businesses in the marketing of Missouri's corn, soybean, wheat, and other grain crops. The program helps ensure food safety by performing USDA mandated inspections on edible rice, peas, and beans. All costs are paid from fees charged for services performed. The division also administers the state's Certified Agricultural Mediation Program, which mediates disputes between Missouri farmers and USDA agencies, and the Commodity Merchandising Program, which provides centralized administration for the collection and distribution of fees for nine commodity check-off programs.

The Division of Plant Industries operates four programs and two laboratories serving Missouri agriculture. The Feed, Seed, and Treated Timber Program performs sampling and laboratory analyses of planting seed and commercial feeds to ensure that they meet requirements for accurate labeling. Inspections are also conducted to ensure good manufacturing practices are followed and that prohibited mammalian protein is not formulated into feed rations to help prevent the dissemination of Bovine Spongiform Encephalopathy (Mad Cow Disease). The program also inspects treated wood products to ensure that minimum preservation standards are met. The Pesticide Control Program promotes the safe use of pesticides by licensing private and commercial applications, conducting field inspections, conducting investigations of pesticide misuse, and ensuring the proper registration of pesticides. The Plant Pest Control Program conducts inspections of nurseries, greenhouses, and other plant products to prevent the introduction and dissemination of insect, disease, and noxious weed pests that could be detrimental to plants and crops. Phytosanitary certification inspections are also conducted for plant materials being exported to other states and countries. The Integrated Pest Management Program promotes effective alternative strategies to traditional pest control through the use of biological control agents, pest resistant varieties, and adoption of improved cultural practices. The program assists county weed control boards in the control and eradication of Johnson grass, a noxious weed. The program also performs shipping point and terminal market inspections of fresh fruits and vegetables to facilitate the sale of Missouri grown produce and ensure the quality of produce sold to consumers.

The Device and Commodity Program inspects livestock market, grain elevator, vehicle, and small retail scales and scanning devices to ensure their accuracy. In addition, milk sales practices are monitored and shell eggs are inspected for quality. The Petroleum/Propane/Anhydrous Ammonia Program protects consumers against inaccurate and unsafe gasoline pumps and unsafe practices by the retailer. In addition, the program approves propane gas delivery truck and dispenser meters to prevent overcharges on fuel bills and oversees anhydrous ammonia fertilizer installations for safety. The Metrology Laboratory certifies volume and weight standards used by measuring device service repair technicians, maintains all mass and volume standards used for calibrating industry standards, and certifies all weighing and measuring devices used by the division's inspectors. In addition, the Moisture Meter Program protects Missouri farmers against unjustified discounts on grain sales due to inaccurate moisture content values. The Fuel Quality Program and laboratory collect samples and perform chemical analyses on gasoline, diesel fuel, heating oil, and other fuels to ensure that octane and other quality specifications are met.

The State Milk Board inspects, samples, and tests milk and milk products ensuring that they are wholesome and safe for consumption. The board operates both a Grade A Milk Inspection Program and a Manufacturing Grade Milk Inspection Program to ensure milk quality. An inspection fee of up to five cents per one hundred pounds of Grade A milk is assessed and deposited in the Milk Inspection Fees Fund to cover all costs of the Grade A Milk Inspection Program. The Manufacturing Grade Milk Inspection Program ensures sanitation and quality standards for milk used only for manufacturing dairy products (e.g. cheese, butter, and ice cream). Approximately one-half of all Grade A milk is consumed as fluid milk with the remainder used for manufacturing purposes.

ENVIRONMENTAL QUALITY

Water Protection Program – The Water Protection Program (WPP) includes three functional areas of responsibility: water pollution control, public drinking water, and financial assistance. The program protects the quality of Missouri's groundwater, streams, and lakes, safeguarding these vital resources, enhancing agricultural production, forestry, fisheries, water-intensive manufacturing, water recreation, tourism, hunting, and fishing and ensuring that water is safe for human and animal consumption. The WPP ensures that all public drinking water systems provide clean and healthy drinking water for Missouri's citizens by ensuring that public water system construction and operation comply with the requirements of the federal Safe Drinking Water Act. The program also trains and certifies operators at Missouri's water supply and water treatment plants. The program's Financial Assistance Center administers the federal Clean Water and Drinking Water State Revolving Fund programs that provide low-interest loans and grants to Missouri communities for the construction of new, and the improvement of existing drinking water supply, wastewater treatment, and stormwater management systems.

Air Pollution Control Program – The Air Pollution Control Program (APCP) staff support the Air Conservation Commission, which develops policies to maintain and enhance the state's air quality for the protection of the public's health. Operating under the Clean Air Act's State Implementation Plans and Rules, the APCP reviews facility construction and operation permits to help ensure ambient air quality. Working with the department's regional office staff, the APCP identifies facilities that are not in compliance prior to pursuing any enforcement action. Collecting air quality and emission inventory data, the APCP provides benchmark data for Missouri air quality monitoring and planning. Through the state's vehicle emission inspection program, the APCP helps ensure that pollutant levels in the St. Louis area improve and meet federal health-based air standards. Staff also coordinate air pollution control activities with other programs in the division.

DEPARTMENT OF NATURAL RESOURCES ENVIRONMENTAL PROGRAMS

Hazardous Waste Program – The Hazardous Waste Program (HWP) provides technical assistance and ensures compliance with state and federal law regulating hazardous waste practices from the point of generation through transportation and final disposal to ensure the safe and legal handling of such materials. The HWP is responsible for permitting and inspecting facilities that treat, store, and dispose of hazardous waste. Together with permitting, the registration and reporting requirements for hazardous waste generators enable the program to identify the amount and types of waste generated, stored, containerized, transported off-site, and treated or otherwise disposed. The HWP also addresses abandoned or uncontrolled hazardous waste sites through assessments, site investigations, feasibility studies, and remedial actions. The HWP registers and regulates petroleum underground storage tanks; provides general and technical information concerning the installation, use, and closure of such systems; encourages compliance with underground storage tank law, regulations, and performance standards; and oversees corrective actions taken in response to leaks and other dangerously improper releases. In addition, the program provides oversight services for those who wish to voluntarily clean up contaminated properties, reviving them for productive use. To ensure safe and productive reuse of properties for future generations, the HWP implements long-term stewardship measures for remedial properties.

Solid Waste Management Program – The Solid Waste Management Program ensures solid waste facilities (e.g. landfills, transfer stations including infectious waste and material recovery facilities, and scrap tire facilities) are designed and operated in a manner protective of neighbors and property through permitting, inspecting, and technical assistance activities. The program encourages management of waste materials through improved processing, reduced generation, beneficial reuse, recycling, energy recovery, and proper disposal.

Land Reclamation Program – The Land Reclamation Program provides technical support for the Land Reclamation Commission. The commission regulates the surface mining of coal and other mineral commodities (such as lead, barite, tar sands, clay, limestone, sand, and gravel). Staff's regulatory duties include developing regulations, permitting, inspection, complaint investigation, bonding, and enforcement. Staff's reclamation duties include human health and environmental hazard assessment, reclamation plan designs, contracting, budgeting, public relations, landowner education, construction oversight, and maintenance of reclaimed abandoned mine lands and bond forfeiture coal mine lands until responsibility release is approved by the commission.

Regional Offices – Regional Office activities support the implementation of the department's environmental programs throughout the State of Missouri. Staff perform field inspections, provide compliance and technical assistance to regulated entities, respond to environmental emergencies for non-hazardous substances (i.e. fishkills), issue permits, investigate reports of environmental concerns from the public, and provide front-line troubleshooting, problem solving, and regulatory education and assistance on environmental issues.

Environmental Services Program – The Environmental Services Program supports department programs by providing accurate scientific data for their work. Staff perform field work, conduct monitoring, collect samples, and provide laboratory testing for environmental pollutants. The Environmental Emergency Response Section serves as the department's front line of defense to significant and imminent environmental emergencies and maintains a 24-hour hotline.

WATER RESOURCES

To meet Missouri's comprehensive water needs, Water Resources hydrologists, geologists, and other staff investigate and monitor surface water and groundwater resource characteristics, availability, and use. Program responsibilities include (1) operating a statewide groundwater aquifer-monitoring network with real-time water quantity data; (2) collecting and analyzing surface-water flow data to safeguard against flood and drought; (3) providing guidance, data, and technical expertise in the preservation and development of sustainable regional water supplies throughout Missouri; (4) administering the provisions of the Missouri Dam and Reservoir Safety Law through registration, construction permits, and inspections; and (5) defending the state's vital water interests in the Missouri River, the Mississippi River, and other interstate water resources, before federal and interstate water resource management authorities.

DEPARTMENT OF NATURAL RESOURCES ENVIRONMENTAL PROGRAMS

SOIL AND WATER CONSERVATION

The Soil and Water Conservation Program implements the policies of the Soil and Water Districts Commission to ensure the long-term productivity of Missouri's most basic resource, the soil, which in turn protects water resources. Program staff provide guidance and technical assistance to Missouri's local soil and water conservation districts and administer several soil conservation programs funded by one-half of the constitutionally authorized one-tenth of one percent dedicated sales tax. Soil and Water Sales Tax funded programs include: (1) cost-sharing grants to help farmers implement approved soil conservation practices; (2) financial assistance for landowners for the purchase of approved conservation equipment; (3) grants to local districts for administrative expenses and technical assistance; (4) special incentives for intensive conservation measures in critical areas; and (5) grants for research on soil conservation problems.

Fiscal Year 2014 Governor's Recommendations

- \$900,000 federal funds for soil and water conservation technical assistance activities.
- \$12,323 Soil and Water Sales Tax Fund for pay plan.

- (\$500,000) Soil and Water Sales Tax Fund core reduction from the Fiscal Year 2013 appropriation level.

ENVIRONMENTAL FINANCIAL SUPPORT

The department administers a variety of funds for local governments and others to combat air pollution, clean up abandoned and uncontrolled hazardous waste sites, reduce and reuse solid waste, reclaim abandoned mine lands, monitor and test drinking water supplies, and construct or improve water and wastewater facilities.

The Division of State Parks manages the many recreational, cultural, and historical resources of the Missouri state parks system. The division also administers programs to promote outdoor recreation statewide.

Missouri's state parks system consists of 87 state parks and historic sites, as well as the Roger Pryor Pioneer Backcountry. The system is divided into five district offices, with each of the district headquarters reporting to the Central Office in Jefferson City. Administrative, maintenance, and service personnel manage the lands and improvements, provide recreational and educational programs for visitors, and provide necessary law enforcement. Funding provided by one-half of the constitutionally authorized one-tenth of one percent Parks, Soil and Water Sales Tax has been used for projects such as campground remodeling; the addition of shower houses and restrooms; paving of roads within campgrounds; restoration of landscapes; and additional personnel for maintenance, education, and site interpretation. The Parks Sales Tax provides continued restoration and improvement of the state parks system and allows division staff to better serve the millions of people who visit parks and historic sites each year.

Central Office administration directs and coordinates the management of the state parks system. Responsibilities include personnel management, budget and policy development, and the evaluation of management procedures and performance. Central Office staff provide logistical support to the individual state parks, and operate the central sign shop, central warehouse, and aerial device unit. Staff also identify unique natural areas which may require protection; conduct special studies related to parks operations and development; and prepare site, architectural, and engineering plans and maps.

The division also assists the State Inter-Agency Council for Outdoor Recreation in the administration of grants that finance outdoor recreation projects.

The Environmental Improvement and Energy Resources Authority, under Chapter 260, RSMo, is an independent, self-supporting, quasi-governmental agency assigned to the Department of Natural Resources.

Due to the special independent status as "a body corporate and politic," the authority is able to issue tax-exempt bonds and utilize fees charged for issuance of its bonds and notes. The authority is empowered to conduct environmental and energy research and development activities; develop alternative methods of financing environmental and energy projects; and assist Missouri communities, organizations, and businesses in obtaining low-cost funds and other financial assistance for projects related to the authority purpose. This appropriation allows authority employees to participate in the state employee retirement system.

DEPARTMENT SUMMARY

The Fiscal Year 2014 budget provides \$147.5 million for the Department of Conservation to support its mission to protect and manage the fish and wildlife resources of Missouri. In 1976, Missouri voters endorsed a measure authorizing a one-eighth of one-cent sales tax to provide for conservation services. This dedicated funding source has helped foster abundant fish, wildlife, forestry, and water resources for generations of Missourians. The department will continue to serve the public responsibly, facilitate the public's participating in resource management activities, and provide an opportunity for all citizens to use, enjoy, and learn about Missouri's natural treasures.

The Division of Workers' Compensation processes all reports of job-related injuries and formal claims for compensation filed with the division under Missouri Workers' Compensation Law. The division also resolves disputes between an employee and employer/insurer through mediation and/or evidentiary hearings, which are conducted by the division's administrative law judges. The division administers the rehabilitation of seriously injured workers, resolves disputes concerning the reasonableness of medical fees and charges, reviews and approves applications by employers or group trusts for self-insurance authority, and investigates allegations of workers' compensation fraud and noncompliance.

Fiscal Year 2014 Governor's Recommendations

- \$36,800 Workers' Compensation Fund for pay plan.
- \$3,282 Workers' Compensation Fund for the final pay period of the Fiscal Year 2013 approved pay plan.

SECOND INJURY FUND BENEFITS

The Second Injury Fund is designed to compensate an injured employee when a current work-related injury combines with a prior injury to create an increased combined disability. For example, if an employee suffers a 15 percent disability from a current work-related injury and is already considered 15 percent disabled from a prior injury, the fund pays 10 percent for the resulting compound disability for a total of 40 percent impairment. The fund is also responsible for payment of medical bills for injured employees when the employer fails to insure its workers' compensation liability. In addition, if an employee is killed, burial expenses and death benefits in the form of weekly payments to the surviving spouse or dependents are paid from the fund. The fund also provides benefits to injured employees undergoing physical rehabilitation. For injuries taking place after August 28, 1998, the fund provides second job lost wage benefits.

Of this amount, 74 percent is used to pay victims, and the remaining 26 percent is transferred to the Basic Civil Legal Services Fund.

DEPARTMENT SUMMARY

The Fiscal Year 2014 budget provides \$1.6 billion for the Department of Mental Health. The primary focus for the department is to provide effective, consumer-friendly services to Missourians challenged by substance abuse, mental disorders, and developmental disabilities. Core services provided by the Department of Mental Health include:

- Offering prevention, evaluation, treatment, and rehabilitation services for individuals requiring public mental health services. One in four Missouri families is affected by mental illness. Though many persons with mental illnesses obtain treatment from private providers, more than 78,000 people a year turn to the Department of Mental Health. The department also operates forensic and sexually violent predator programs that protect the public from clients committed to state custody by the courts.
- Improving the lives of persons with developmental disabilities – individuals who are substantially limited in their ability to function independently. The department is committed to building partnerships that support individuals with developmental disabilities in meeting their own unique needs. This is accomplished through a client-centered planning process designed to provide tailored programs and services that will enable these individuals to live in the safest, least restrictive setting appropriate to their individual needs and capacities. The successful new Partnership for Hope Program enables individuals to maintain their independence and avoid more costly institutional placements.
- Providing substance abuse prevention, education, intervention, and treatment. The department provides services that have a positive impact on the problems that are associated with addiction – problems that cost the state's economy through loss of productivity, rising health care expenditures, and increased crime.
- Establishing policies, standards, and quality controls for prevention, education, habilitation, rehabilitation, and treatment for Missourians challenged by mental illness, substance abuse/addiction, and developmental disabilities.

The Division of Comprehensive Psychiatric Services is charged to deliver psychiatric services to individuals with mental illness throughout the State of Missouri. Services are targeted primarily to persons with serious and persistent mental illness, children and youth with serious emotional disturbances, and people with mental illness who have been involved in the criminal justice system. Priorities within these target groups are individuals in crisis, people who are homeless, those recently discharged from inpatient care, individuals with complex medical conditions, and individuals on probation or parole.

Each of Missouri's 25 service areas has a community mental health center that is designated as the division's administrative agent and provides psychiatric services to individuals that meet admission criteria. These administrative agents serve as the primary entry and exit point for state-funded mental health services. The agents are responsible for providing services to both adults and children in their assigned areas and for providing follow-up services to individuals released from state-operated inpatient hospitals.

The division operates seven adult inpatient facilities, one children's psychiatric hospital, and one children's residential center. It also operates a secure inpatient program for sexually violent predators committed to state custody by the courts.

The Division of Developmental Disabilities operates several facilities and purchases residential, habilitative, and support services for consumers who live in the community and for families who keep their developmentally disabled children at home. This is a key element in the development of an integrated system that will enable developmentally disabled consumers to live as normally and independently as their conditions and behavior permit. Community-based services range from residential placements to support services for persons living with their families or independently. The Medicaid home and community-based waivers play a major role in the division's community service system. The Partnership for Hope Program utilizes local, state, and federal resources to serve individuals and families impacted by developmental disabilities. The 11 regional offices are the entry and exit points for consumers. The offices provide screening and diagnostic services for both children and adults, evaluate the need for services and arrange for them, and monitor and assess consumers' progress.

The division provides residential services at the five state habilitation centers. These centers offer training and habilitation for individuals who require Intermediate Care Facility for Mentally Retarded (ICF/MR) services because of the severity of their disabilities or for behavioral reasons. Those who can successfully transition are eventually moved into appropriate community settings, with the goal of integrating them as fully as possible into normal community life.

Fiscal Year 2014 Governor's Recommendations

- \$43,000,000 federal funds resulting from increased MO HealthNet earnings.
- \$25,351,334 for anticipated utilization increases in the MO HealthNet Program and serving more individuals through Partnership for Hope, including \$8,018,392 general revenue.
- \$19,670,931 federal and other funds for a three percent rate increase for community-based providers.

The Division of Senior and Disability Services is mandated to investigate allegations of abuse, neglect, and financial exploitation of vulnerable seniors and individuals with disabilities based on reports received at a state-wide, toll-free hotline. Designated as the State Unit on Aging, the division is responsible for assuring that a comprehensive, effective, and coordinated home and community-based long-term care delivery system is available for the elderly and individuals with disabilities. The division: informs individuals considering long-term care about their options for home care and provides appropriate referrals; authorizes Medicaid funded home and community-based services; provides care plan management for home care service recipients; and monitors the quality of services provided to participants. The State Long-Term Care Ombudsman Program advocates for the rights of residents in licensed long-term care facilities and educates volunteers to assist residents in facilities across the state. Funding for the Area Agencies on Aging (AAAs) helps provide seniors the services they need to continue living in their communities, including congregate and home-delivered meals, transportation, legal services, health promotion, and other support services authorized under the Older Americans Act. The division also provides guidance, oversight, and monitoring of the programs and services offered by the AAAs. These flexible service delivery systems help empower thousands of elderly and adults with disabilities to live dignified, independent lives in their own homes and communities.

DEPARTMENT OF SOCIAL SERVICES

DEPARTMENT SUMMARY

The Fiscal Year 2014 budget provides \$9.4 billion for the Department of Social Services. The core functions provided by the Department of Social Services include:

- Protecting the welfare of Missouri's children through foster care, child abuse and neglect investigations, children's treatment, purchase of child care, and adoption assistance.
- Administering income support programs and many of the state's child support enforcement functions, such as, Temporary Assistance for Needy Families, Food Stamps, Energy Assistance, Blind Pension, Supplemental Aid to the Blind, Domestic Violence, and Medicaid eligibility.
- Providing case management, community care, and aftercare to youth committed to the state's custody for various crimes. The Juvenile Court Diversion Program works with local communities to help prevent juvenile crime and provide treatment for youth in their own communities.
- Administering health care delivery to approximately 900,000 Missouri citizens, including the elderly, people with disabilities, children, and pregnant women. The Medicaid Program (Title XIX of the Social Security Act) is a federal-state effort to meet the health care needs of those who cannot pay for their own care. The health care services include hospital, physician, pharmacy, skilled nursing home care, home health care, mental health, and managed care. While states must meet certain minimum criteria, each state can establish eligibility guidelines, benefit packages, and provider payment rates for its Medicaid Program.

In November 2012, Governor Nixon laid out his plan to provide Medicaid coverage for more Missourians. Decreasing the number of the state's uninsured will not only benefit the overall health of Missouri residents but will also be a fiscally responsible move for taxpayers. Federal funding will cover 100 percent of the costs for the first three years and 90 percent or more in subsequent years. This action will provide coverage to approximately 300,000 low-income, working Missourians between the ages of 19 and 64 who are not eligible for Medicare and who cannot afford health insurance. It will also allow taxes paid by Missourians to be spent in Missouri, rather than other states.

Administrative Services/Eligibility and Enrollment System – Management, coordination, and general direction are provided to all Family Support Division programs. The division director and staff monitor the efficiency and effectiveness of and provide policy direction for Income Maintenance and Child Support programs. Administrative Services also provides operational services, human resource support, and systems support to Income Maintenance and Child Support Enforcement field staff. The division manages Missouri's current eligibility and enrollment system which is unable to meet new federal requirements regarding a web-based application and seamless coordination with other insurance affordability programs. The federal government has made enhanced federal matching funds available through December 31, 2015 to upgrade state eligibility and enrollment systems. The department's four-year technology investment plan will improve workflows and business processes and allow for significant staff efficiencies.

DEPARTMENT OF SOCIAL SERVICES FAMILY SUPPORT DIVISION

Income Maintenance Field Staff and Operations – Staff provides intake services, information and referral, and eligibility determinations for applicants of services provided by the department. Funds in these sections support the salaries, general operating expenses, and training for Income Maintenance eligibility specialists, administrative and supervisory staff, and clerical support positions in Family Support offices.

Family Support Staff Training – This provides training for income maintenance and child support enforcement staff as well as community representatives. Proper training is key to ensuring program compliance and developing effective staff.

Community Partnerships – Twenty organizations partner with the department and other state agencies to plan, develop, finance, and monitor strategies to achieve specific core results. These core results include safe and healthy children and families, children ready to enter and succeed in school, youth ready to enter the workforce, and parents as a part of the workforce.

Missouri Mentoring Partnership – The program provides intervention programming and offers worksite and teen parent mentoring to youth at risk of entering the welfare system or the justice system.

Adolescent Boys Program – Federal dollars are utilized to help boys age 11-14 understand healthy relationships, respect for females in their lives, and the responsibility fatherhood brings. The program also explores the risk factors related to teen fatherhood and increases young fathers' involvement with their children.

Family Nutrition Program – The department partners with the community to deliver information and training on nutrition and food budgeting for food stamp eligible individuals, especially women; people with children in the home; at risk, pregnant, and parenting teens; youth; and seniors.

Temporary Assistance for Needy Families (TANF) – TANF is a program designed to provide temporary assistance/relief to families to promote self-sufficiency so parents do not remain dependent on government payments and children do not grow up in poverty. Under federal welfare reform, TANF is designed to be a temporary assistance which, coupled with a myriad of other support services, enables parents to find and retain employment; thereby, enabling them to support their families without government assistance.

Adult Supplementation – The federal government assumed responsibility for Old Age Assistance, Aid to the Permanently and Totally Disabled, and Aid to the Blind programs in January 1974 when it created the Supplemental Security Income (SSI) Program. Recipients who are eligible for SSI, but who receive smaller benefits than their December 1973 payments, receive payments from the state equal to the difference. Recipients who are not eligible for SSI, but who received payments under one of the earlier programs, receive payments from the state equal to the amount they received in December 1973. The caseload has been declining since 1973 as recipients die, become ineligible through income changes, or leave the state.

Supplemental Nursing Care – This state-funded program makes monthly cash payments to residents of residential care, assisted living, and non-Medicaid nursing facilities for use in paying for their care. The type of facility appropriate for clients is dictated by their level of need for care. Minimal medical care is provided in Residential Care, more in Assisted Living, and significantly more in Nursing Facilities. Supplemental Nursing Care recipients also are provided an allowance each month for personal needs such as toiletries, transportation, and hair care.

Blind Pension and Supplemental Aid to Blind – Three separate programs assist blind persons. The first, Supplemental Aid to the Blind, pays benefits to those who meet certain income requirements. The second, Blind Pension, aids the blind who do not qualify for Supplemental Aid to the Blind and who do not own property – excluding homes – worth more than \$20,000. The third program, Adult Supplemental Payments, aids those who received Aid to the Blind before the federal SSI Program began in 1974, but who receive less from SSI than from the earlier program. New cases that meet the state's 1973 guideline also may be certified for Supplemental Aid to the Blind. All of these programs are funded from an earmarked state property tax that provides revenue to the Blind Pension Fund.

Community Services Block Grant (CSBG), Emergency Solutions Grants, and Refugee Assistance – CSBG funds are used to address six causes of poverty: unemployment, inadequate education, malnutrition, inadequate housing, unmet emergency needs, and poor use of income. Federal statutes require that 90 percent of CSBG funding be passed through to Community Action Agencies. The Emergency Solutions Grants Program provides grants to local governments for renovation or conversion of buildings for emergency shelters and to help meet the cost of emergency shelter operations. The Refugee Assistance Program provides services to help refugees overcome language barriers, acquire or adapt vocational skills, and adjust to their new environment.

Food Distribution – The federally funded Food Distribution Program enables Family Support to provide USDA commodities and administrative funds to not-for-profit food banks to store, ship, and distribute food to eligible individuals and families. The Food Distribution Program also provides commodities for the Summer Food Service Program and other charitable institutions.

Energy Assistance – The Low-Income Home Energy Assistance Program is a federally funded block grant which provides heating assistance payments and winter and summer crisis assistance to low-income households.

Domestic Violence – This program issues contracts to local family violence shelters. Funds may be used for emergency shelters, counseling, and services for families in community-based shelters.

DEPARTMENT OF SOCIAL SERVICES FAMILY SUPPORT DIVISION

Services for the Visually Impaired/Business Enterprises – Professional staff in Rehabilitation Services for the Blind counsel and train blind and visually impaired Missourians, arrange for the purchase of other services, and help the visually impaired find jobs. Services include rehabilitation, vocational rehabilitation, diagnosis and treatment of eye disease, equipment and supplies for blind preschool children, the Public Building Vending program, and the Readers for the Blind Program. The Blind Enterprise Program facilitates a contract arrangement between Fort Leonard Wood and a blind vendor to provide full food service. Payments from the Department of Defense are received by the Department of Social Services, deposited into the State Treasury and paid to the subcontractor for its services under the contract.

Child Support Field Staff and Operations – Child Support Enforcement staff provide services to locate missing parents; establish paternity, medical support, and financial child support obligations; and enforce the collection of support payments for TANF, MO HealthNet and for non-TANF families that apply for child support services. The state retains approximately 36 percent of all assigned child support collected on current and former TANF cases.

Child Support Distributions – Distributions are made to reimburse counties that have signed a cooperative agreement with the Department of Social Services to provide judicial assistance in the establishment and enforcement of child support obligations. Child support collection and prosecution costs incurred by the counties are reimbursed by the federal government at a rate of 66 percent. This funding also supports contractual agreements with local governments to assist the division with paternity and other types of child support referrals through the establishment of multi-county, full-service centers. Counties pool resources to establish service centers dedicated to child support work.

Distributions are also made to families when the payment is collected by the department on behalf of the family and to refund overpayments from federal income tax refund intercepts. This appropriation also provides a mechanism for reimbursing non-custodial parents for child support payments over-collected from state income tax refund intercepts.

Children's Administration – The Children's Division Administrative Services provides management, coordination, and general direction for all Children's Division programs. The division director and staff monitor the effectiveness of programs that promote safety, permanency, and well-being for Missouri's children served by the division. Administrative Services provides policy direction, operational services, and human resource support to field staff.

DEPARTMENT OF SOCIAL SERVICES CHILDREN'S DIVISION

CD Field Staff and Operations/Staff Training – This provides funding and training for Children's Service workers and support staff to maintain the Children's Division programs in each of the state's 45 judicial circuits. Front-line staff respond to allegations of child abuse or neglect, provide assistance for families in need of services to keep or return children home safely, secure appropriate out-of-home placements for children placed in the division's custody, and locate permanent homes when it is in the best interest of children.

In 2009, the Children's Division obtained national accreditation by the Council on Accreditation (COA), in accordance with Section 210.113, RSMo. To achieve accreditation, Missouri's child welfare system was reviewed and measured against nationally-recognized standards of best practice established by COA.

Children's Treatment Services, Crisis Care, and Prevention Programs – The Children's Treatment Services funding provides a variety of contracted services to child abuse victims and their parents. Specific services include family therapy, homemaker services, respite care, parent aides, child care, and crisis care services. Children's Treatment Services funding also provides for intensive, in-home services to help prevent placement of children in foster care and keep children with their families. Prevention programs such as Crisis Care Centers and home visitation provide services for families and children to prevent child abuse and neglect and to divert children from the state's custody.

Foster Care, Foster Parent Training, Children's Account, Adoption Subsidy, and Subsidized Guardianship – The Foster Care Program provides monthly room and board payments for children in the custody and care of the Children's Division. Types of placements include traditional foster care, relative care, and kinship care. For children with intensive behavioral or medical needs, specialized placements are provided. Payments are made for non-Medicaid medical and dental services, clothing, transportation, foster parent training, respite care, and other needs. Children in state custody may receive funds from a variety of sources, including child support payments. These monies are used to offset the cost of maintaining the child in foster care and to pay for any special expenses of the child.

The Adoption Subsidy Program and Subsidized Guardianship Program provide financial assistance to parents who adopt or become legal guardians of special needs children in order to move these children from foster care into permanent family arrangements.

Children's Programs Pool – This pooled appropriation allows flexible spending for Children's Program areas. These dollars have been reallocated back to the program area, as used in the prior fiscal year.

Child Assessment Centers – Child Assessment Centers provide a child friendly setting where children, reported to have been sexually abused, can be interviewed by multi-disciplinary team members and receive a single medical examination.

Residential Treatment, Transitional Living, Independent Living, and Title IV-E Court Contracts – Residential facilities are used when foster family care cannot meet the children's treatment needs. The division contracts with a wide range of residential programs, ranging from small group homes to large, self-contained, resident campuses. Facilities must be licensed or be accredited by one of three nationally recognized accrediting organizations. Independent Living programs assist foster care children, ages 15 to 21, in learning the necessary skills for the transition from foster care to adult independent living in the community. Transitional Living placement programs assist foster care children ages 16 to 21 by placing youth in their communities with support services. Court contracts through the Title IV-E Program allow the Children's Division to pass through federal funds to be used for reimbursement to juvenile courts for children in the court's custody placed in juvenile court residential facilities.

Foster Care Case Management Contracts – The Children's Division contracts with private agencies to provide foster/adoption case management services to children who have been removed from their homes and are under the jurisdiction of the Juvenile Court. These children have been abused and/or neglected or were found to be at serious risk of such. The goal of the foster care case management contracts is to improve safety, stability, and timely permanency for these children.

Purchase of Child Care – A key to successful welfare reform and the prevention of abuse and neglect is access to quality, affordable child care. Without child care assistance, many parents could not participate in job training or education, or maintain employment in order to become self-sufficient and end their dependence on government assistance. Without such assistance, the risk of children being left in unsafe environments also increases. The Early Childhood Development, Education and Care Fund supports programs to improve the availability of, and access to, quality child care and programs that prepare children to enter school ready to succeed. Because children learn more from the ages of zero to five than during any other developmental period, the availability of quality child care is essential to preparing children for school.

Foster Youth Educational Assistance – This provides financial assistance for tuition and other fees related to post-secondary education and vocational training to youth in foster care and former foster care youth. The program gives the Division the opportunity to provide funding to assist eligible youth interested in pursuing higher education to reach their goals.

Youth Services Administration – The youth services administrative unit assumes overall responsibility for designing, implementing, managing, and evaluating all programs operated by the Division of Youth Services (DYS). Five regional offices work with central office staff to ensure program efficiency and effectiveness at the local level.

Youth Treatment – Youth treatment is composed of residential services and non-residential services. Residential Services provide youthful offenders with structured rehabilitation programs when placement at home is no longer an option. Services include academic and vocational education for youth in residential placement. The division operates 6 secure care facilities, 19 moderate care facilities, and 7 community-based facilities. Non-residential Services help youthful offenders adjust to community life and become law-abiding and productive citizens. The division provides: case management; community care which includes day treatment, intensive supervision, family counseling, and alternative living; and aftercare services. Case management involves evaluating youths' needs and managing their service delivery plan. Community care involves treatment of youth without placement in a DYS facility. Alternative living includes foster care and independent living services for juveniles who cannot return to their homes. Day treatment programs provide education and treatment services for youth who continue to live at home. Family counseling is provided to strengthen the family structure, communication, and parenting. Intensive supervision provides mentoring to youth in the community. Aftercare is the provision of support services to help juveniles return to their families and communities as law-abiding and productive citizens.

Juvenile Court Diversion – The Juvenile Court Diversion Program encourages local communities to develop programs to divert youth from commitment to DYS through contracts with local courts to provide early intervention services to first-time offenders to stop their delinquent behavior.

Administrative Services – The MO HealthNet Division is an intermediary for providing services to both participants and providers. The agency's structure includes two major sections: Finance and Operations and Clinical Services.

The Finance and Operations section works to incorporate the newest and best technology to accurately and efficiently pay providers in a paperless environment. Technology provides a robust reporting function that is critical to the management responsibilities of the division. The resultant database of paid claims is used to monitor the programs, provide program integrity, and compile data to project financial needs and trends. Provider relations, participant services, and premium collections are also functions under the Finance and Operations section.

The Clinical Services section oversees pharmacy enhancement and rebates, the exception program, the psychology program, and the Missouri Rx Plan. The Clinical Services unit reaches out to organizations through existing contracts, such as the University of Missouri Health Management Team, to assist in needed data mining and analysis. The process allows for examination and analysis of performance in terms of efficiency of operations and anticipated health status outcomes. Utilizing a variety of sources, the Clinical Services section establishes best practices based on evidence-based reviews.

Fiscal Year 2014 Governor's Recommendations

Vendor Payments – The Medicaid Program (Title XIX of the Social Security Act) is a federal-state effort to pay for the health care of those who cannot pay for their own care. Federal law sets the minimum services for any state that opts to administer the Medicaid Program. These include hospital; physician; Early and Periodic Screening, Diagnostic and Treatment, lab and x-ray; skilled nursing home care; home health care; Federally Qualified Health Centers; rural health clinics; non-emergency transportation; and family planning services.

In addition to Medicaid State Plan Services, Missouri provides women's health services for women with incomes no greater than 185 percent of the federal poverty level, through an 1115 waiver. Also, the State Children's Health Insurance Program is the federal-state effort to pay for the health care of uninsured children up to 300 percent of the federal poverty level. Children receive a benefit package equal to Medicaid coverage, though non-emergency medical transportation is not available to children in families with income above 150 percent of the federal poverty level. Families with incomes above 150 percent of the federal poverty level, but below 300 percent of the federal poverty level must pay premiums to receive coverage for their children.

Finally, this budget provides transitional health care services to approximately 300,000 Missourians. For the first three years, this expansion is funded entirely through federal dollars. The state match requirement increases over the next five years until reaching ten percent.

ADMINISTRATION

Article IV, Section 15 of the Missouri Constitution describes the duties and responsibilities of the State Treasurer. The State Treasurer is responsible for receiving and investing state moneys, posting receipts to the proper funds, and signing warrants drawn according to law. As custodian of those funds, the Treasurer determines the amount of state moneys not needed for current operating expenses and invests those funds in interest-bearing time deposits in Missouri banking institutions or in short-term United States government obligations. The Treasurer is required to give due consideration to the preservation of state funds and the comparative yields available. The Treasurer also must determine whether the general welfare of the state is better served by investing state funds in United States securities or within the Missouri banking system.

The Treasurer also administers the state's unclaimed property law by collecting unclaimed or abandoned funds and property belonging to Missouri citizens and trying to locate the owners.

Fiscal Year 2014 Governor's Recommendations

- \$18,503 other funds for pay plan.
- \$1,306 other funds for the final pay period of the Fiscal Year 2013 approved pay plan.

ISSUING DUPLICATE AND OUTLAWED CHECKS

These functions allow payment of claims against the state in cases where checks are not presented for payment within 12 months of issuance as required by law and in cases where checks are presented for payment more than five years after the date of issuance.

Fiscal Year 2014 Governor's Recommendations

Continue funding at the current level.

ABANDONED FUND ACCOUNT

In accordance with Section 447.543, RSMo, the Abandoned Fund Account has the two-fold purpose of receiving funds that have remained unclaimed for a period of seven years and making the payment of valid claims. Any time the fund exceeds 1/12th of the prior year's disbursements, the Treasurer may, and at least once every year shall, transfer the excess to general revenue. If verified claims for payment should reduce the balance in the account to less than 1/24th of the prior year's disbursements, the Treasurer shall transfer from general revenue an amount sufficient to restore the fund to 1/12th of the prior year's disbursements.

Fiscal Year 2014 Governor's Recommendations

The Supreme Court has exclusive appellate jurisdiction in all cases involving: the validity of a treaty or statute of the United States or of a statute or provision of the Missouri Constitution; the construction of the state's revenue laws; the title to any state office; and, in all cases, where the punishment imposed is death. In addition, the court may order cases transferred to it from the Court of Appeals if the cases involve questions of general interest or importance, if the court thinks the existing law should be reexamined, if the lower court opinion conflicts with prior opinions, or for other reasons provided by rule of the court. The Court of Appeals also may order a case transferred to the Supreme Court after opinion either by order of the Court of Appeals itself, or by the dissent of a court of appeals judge.

The court is also authorized by the Constitution to establish rules for practice and procedure in the courts and to make temporary transfers of judicial personnel. In addition to its decision-making powers, the Supreme Court supervises all lower courts in the state (assisted by the Office of State Courts Administrator), licenses all lawyers practicing in Missouri, and disciplines those found guilty of violating the Rules of Professional Conduct.

Missouri's current appellate structure is a single Court of Appeals consisting of three districts. The Eastern District sits in St. Louis, the Western District in Kansas City, and the Southern District holds sessions in Springfield and Poplar Bluff. Statute sets the number of judges in each district: 14 in the Eastern District, 11 in the Western District, and 7 in the Southern District.

The Court of Appeals may issue and determine original remedial writs and has general appellate jurisdiction in all cases not within the exclusive jurisdiction of the Supreme Court. Cases not within the Supreme Court's exclusive jurisdiction may be transferred from the Court of Appeals to the Supreme Court when determined that a case involves an important issue that should be decided by the state's highest court.

The drug court program uses the authority of the court to identify those offenders for whom costly incarceration is neither necessary nor in the state's long-term best interest of the efficient allocation of scarce public resources. Under this concept, judges divert defendants to drug court programs at various stages of the judicial process based on the circumstance. Drug courts provide an additional tool to reduce the number of people entering the court and penal systems because of substance abuse. Additionally, providing drug treatment programs decreases the negative consequences of drug abuse by reducing the number of additional cases filed involving family disputes, abuse and neglect, truancy, property crimes, and crimes of violence.

Any circuit may establish a drug court that combines judicial supervision, drug testing, and treatment of drug court participants. The "Drug Court Coordinating Commission" is composed of eight members: one member selected by the director of the Department of Corrections, one member selected by the director of the Department of Social Services, one member selected by the director of the Department of Mental Health, one member selected by the director of the Department of Public Safety, one member selected by the Office of State Courts Administrator, and three members selected by the Supreme Court. The commission is to evaluate, secure, coordinate, and allocate funding resources to the various drug courts around the state.

- \$1,810 to increase the Drug Courts transfer due to the Fiscal Year 2014 recommended pay plan.
